Re: Application of Duke Energy Progress, Incorporated to Establish a Distributed Energy Resource Program

Docket No. 2015-53-E

Dear Ms. Boyd:

By this letter, the South Carolina Office of Regulatory Staff ("ORS") hereby notifies the Public Service Commission of South Carolina ("Commission") that ORS has reviewed and supports the letter submitted by Duke Energy Progress, LLC ("DEP" or the "Company") on August 28, 2018, in the above referenced Docket. In the letter, DEP proposes to amend its tariffs for the Small Solar Rebate Program and Large Solar Rebate Program ("Programs") to adjust when the early termination charges for the respective programs are assessed.

Under the existing tariff provisions, participants in the Programs must operate their respective solar generating facility for a minimum of five years. If a customer terminates his or her agreement for electric service before the five-year period has expired, the customer is assessed an early termination charge. The Company believes that eliminating the early termination charge for program participants in certain circumstances<sup>1</sup> may result in a more equitable and appropriate arrangement for its customers.

<sup>&</sup>lt;sup>1</sup> The Company's proposed tariff revision states that, "the early termination charge will not be assessed if the termination is for good cause, including due to Acts of God or the relocation of the customer."

Letter-Jocelyn G. Boyd, Esquire Page 2 of 2 September 10, 2018

Thank you for the opportunity to provide comments in this matter.

Sincerely,

Andrew M. Bateman
